

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office
FLOOR DEBATE

March 30, 2004 LB 1089

maybe...I'm assuming that I'm catching you off guard, so...

SENATOR WEHRBEIN: Yeah.

SENATOR PREISTER: What my concern is, is if we're giving \$306,000 to the State Fair, and the State Fair is also giving additional money to subsidize the horse racing industry, that maybe we aren't aware of in this body, that maybe we should have those figures and that information. And I don't know for certain, but I was told that we, at the State Fair, are paying expenses for the horse racing season that's being held there. And you had said at one time horse racing paid into the State Fair. But if what I was told is accurate, it's reversed, and at this point the State Fair is now subsidizing horse racing. Now, if we want to do that and that's a conscious decision, that's a decision that probably this body needs to make. To make it by default I'm not sure is the best thing to do. So it would be helpful, I think, if we had some accurate information on where the State Fair is losing money. And if the State Fair is losing money on horse racing, and horse racing is being subsidized by the State Fair, that then comes to the Legislature and asks for additional money for judges and for...and these prize monies and these judges also judge adult events, and adults get these prize monies too, then we should have a different view of where some of that money should come from, and we should be making that as a conscious decision, if that's true. So I would hope that someone can come up with some numbers, and we can see how much money is being subsidized, if that is the case. And at this point, I'm not certain, so I don't have an exact answer. But I was given the information. And I think if no one here can answer that question, we should get that answer. We should also know if there's anything in statute that requires us to run so many days of racing. It's my understanding that the track in Omaha is making money. They run just a few days a year. The track...

SENATOR CUDABACK: One minute.

SENATOR PREISTER: ...in Lincoln runs more races over a longer period of time. And running those additional days ends up costing more money that is not returned. So if that's the case,
